FRONT-END DEVELOPER

Profile:

Courteous, enthusiastic and creative, I am interested in IT and everything in its orbit. I recently began to be fascinated by web programming, e.g. building websites. I want to join a company as a front-end developer. As this area complements my studies, I am keen to gain more experience in this field. For this reason, I am looking for a company willing to offer me an internship among their developers. In return, Creating or developing high quality content is my passion. I would offer my full commitment, and be a pleasant and friendly addition to your team.

I am therefore currently looking for a job or an internship as a front-end developer.

Skills:

• Structuring Languages	HTML5, CSS3, Bootstrap, Sass
• Programming Languages	Javascript, PHP, MySQL
• Softwares (Adobe)	Photoshop, Illustrator, XD
• Softwares (Microsoft)	MS Office Suite
• Google (Apps)	Slides, Docs, Sheets, Forms, Drive
• IDE	Visual Studio, VS Code, Brackets, Netbeans
• IDE	Eclipse, Intellij, Sublime text, Notepad++
• HTTP Servers	Apache, Tomcat
• Version Control	GitHub
• Operating Systems	Windows, Mac

Projects:

• Cosmetics Website	It was a Responsive Cosmetic website which included structured language such as HTML, CSS, and Javascript. This project was developed by two team members. This website includes different categories for cosmetic products. This Project took four days to complete. Several CSS styles, including Neomorphism were used to make the website attractive and user friendly.
• Car Race Game	This project included 4 team mates and created a car racing game using all the core and advanced javascript. Duration for this project was 8 days.
• Tic Tac Toe Game	This project included 2 team mates and created a Tic Tac Toe game in Java. This project took one week to complete. This is a game for two players, X and O, who take turns marking the spaces in a 3×3 grid. The player who succeeds in placing three of their marks in a horizontal, vertical, or diagonal row is the winner.
